PROFESSIONAL SUMMARY

Motivated Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning, with a strong foundation in Java, Python and object-oriented programming. Passionate about developing efficient and reliable software solutions while continuously learning emerging technologies. Seeking an opportunity to contribute technical skills, analytical thinking, and a collaborative mindset toward building innovative solutions and growing as a software professional.

EDUCATION

VVC College of Engineering, Rajahmundry Bachelor of Technology – Computer Science and Engineering (AI/ML) CGPA: 7.14	2023 – 2027
Career Point Junior College, Rajahmundry Andhra Pradesh Board of Intermediate Education (BIEAP) MPC — Mathematics, Physics, Chemistry Percentage: 66%	2021 – 2023
C.G.T.M.E.M. School, Rajahmundry Secondary School Certification(X) Percentage: 85%	2020 – 2021

PROJECTS

Credit-card-approval-prediction

github link: <https://github.com/radhakrishna-bandaru/Credit-card-approval-prediction>

Technologies: Python, Flask, HTML5, CSS3, Scikit-learn, Pandas, NumPy, Joblib

- Developed a Flask-based web application for credit card approval prediction using a Machine Learning model.
- Integrated the trained model with Flask to generate real-time predictions based on customer input.
- Designed a responsive banking-style user interface using HTML5 and CSS3 for an improved user experience.
- Managed project development and version control using Git and GitHub.

Online-examination-system

github link: <https://github.com/radhakrishna-bandaru/Online-examination-system>

Technologies: React.js, Vite, JavaScript (ES6), HTML5, CSS3, React Router DOM, React Icons, LocalStorage, Git, GitHub, Vercel

- Designed and developed a responsive online examination platform using React.js, ensuring a seamless and interactive user experience.
- Built authentication features, including Login and Signup, and implemented a dynamic examination module with client-side validation.
- Leveraged React Router DOM to enable efficient single-page application (SPA) navigation and improve application performance.
- Implemented LocalStorage for secure client-side persistence of user sessions and examination data.

EXPERIENCE

AI Intern(completed)

05/2025 – 07/2025

Artificial Intelligence Medical & Engineering Researchers Society (AIMER Society)

- Developed AI solutions using Roboflow and Hugging Face for computer vision tasks.
- Built and evaluated image classification models using annotated datasets.
- Performed dataset annotation, preprocessing, and management with Roboflow.
- Utilized Hugging Face pre-trained models to explore AI and Generative AI applications.
- Evaluated model performance and gained hands-on experience with end-to-end AI workflows.

SKILLS

Programming languages — C Programming, Python, Java

Web development — HTML5, CSS, JavaScript, React

Database — MySQL

Tools — Git/Github, VS Code

Soft skills — Time management, Patience, Good communication skills, Logical Thinking, Team Handling

CERTIFICATES

- **C language** — Pursued training in programming with C Language (Certification no:2023/BCI/246)
- **HTML5** — Infosys Course Completion Certificate.
- **Entrepreneurship** — Startup Business Management Programme (E learning) - Andhra Pradesh Innovation Society.
- **ServiceNow** — ServiceNow Certified System Administrator (CSA) – ServiceNow | May 2026
- **ServiceNow** — ServiceNow Certified Application Developer (CAD) – ServiceNow | June 2026

ACHIEVEMENTS

- Secured 4th Prize at AIGNITE National-Level Gen AI Hackathon 2025, conducted by V Cube Software Solutions at Srinivasa Institute of Engineering & Technology (SIET).
- Secured 2nd Place at ACT-2K25 Hackathon, organized by the Department of Computer Science & Engineering at BVC College of Engineering.
- Participated in a Coding Puzzle event at ACT 2K25, organized by the Department of Computer Science & Engineering, BVC College of Engineering.
